

# Accreditations & Certificates

## We're committed to excellence

YES Energy Solutions is a member of several business associations, environmental groups and trading networks and holds a broad range of respected industry accreditations.

### Green Deal Approved

As a Green Deal Provider, Assessor and Installer organisation, YES Energy Solutions is officially authorised to distribute funding, carryout household assessments and install energy saving home improvements under the Government's ECO and Green Deal schemes.

\*Authorised for measures listed on [www.yesenergysolutions.co.uk](http://www.yesenergysolutions.co.uk)

### MCS & RECC

We're accredited under the Microgeneration Certification Scheme (MCS) for solar PV and air source heat pump installations. We're also registered with the Renewable Energy Consumer Code (RECC) to demonstrate our commitment to ethical trading and quality customer service.

### Gas Safe

YES Energy Solutions is Gas Safe accredited, allowing us to fit and facilitate the installation of mains gas boilers and central heating systems. This critical certification has enabled us to help thousands of vulnerable residents out of fuel poverty as well as establish effective bilateral agreements with market leading gas boiler manufacturers.

## ISO Certified

To ensure that all of our operations are compliant, well structured and effective, we have embraced ISO working standards whole heartedly. YES Energy Solutions is accredited in Information Security Management (ISO 27001), has implemented an effective Environmental Management System (ISO 14001) and applies a robust Quality Management System (ISO 9001) to all working procedures to ensure that our customers and clients receive a consistent, professional service.

## CHAS , Achilles & Construction Line

To demonstrate our commitment to compliance, quality and health and safety throughout our whole supply chain, we have joined a number of contracting networks including: CHAS, Achilles and Construction Line. This ensures that all of our certificates and company policies are up to date and in line with industry specifications.

## NEA Membership

YES Energy Solutions is a member of the National Energy Action (NEA) Business Supporters Group - a consortium of proactive professionals focussed on eradicating fuel poverty in the UK. As a dedicated member, we provide regular industry updates, speak at events, support NEA campaigns and promote solutions to affordable warmth through newsletters and stakeholder communications.

*Campaigning for Warm Homes*

## Fuel Poverty & Energy Efficiency Group

In 2014 YES Energy Solutions joined the All Party Parliamentary Fuel Poverty & Energy Efficiency Group. Being a member enables us to stimulate debate amongst Government officials, energy suppliers and other organisations, as well as offer important insight to help shape future policy and action on alleviating fuel poverty.
